OUR STORY

Lets save dogs lives!!!

www.doglovers4safetrapping.org

I am Toni and this was my dog, Birdie. She had just turned four and she was my best friend. I could pull her ears, tail, or whatever and she didn't even care. When mom wasn't looking I would give her as many treats as she wanted. I guess when I was born she even lactated, whatever that means. Anyway she was killed in a bodygrip trap right after Christmas.

I miss her so much! The trap, a 220 conibear, was baited with meat in a box set on our neighbors property. My dad & brother were out with the dogs and Birdie didn't return, she never liked to roam but she must have got curious when she smelled that meat. Dad & mom say hopefully the laws will change to stop this from happ-ing, I sure hope so.

What you can do to help. Log on to doglovers4safetrappingmn.org and learn more and also sign a petition that would make these sets illegal.

The Bible says: all things God works for the good of those who love him. Romans 8:28
